## Product Summary

Download flyer

Designed for intermittent blasting operations. The TRINCO™ Model 36 with Dust Collector vacuums the dust and contamination from the cabinet. Media is recycled from the gun system to the hopper and back to the gun system.

TRINCO™ BP Dust Collectors vacuum air borne dust from the cabinet during blasting, providing good visibility for the operator and preventing dust from escaping the cabinet. TRINCO™ BP Dust Collectors are ideal for low to medium blasting requirements. Click System Upgrades button for information on the

TRINCO™ 400PT Dust Collector for medium to high blasting requirements  
Bright white fluorescent lighting provides excellent illumination and eliminates shadows

Large safety glass window with easy change window frame provides excellent visibility.

TRINCO™ Air Pressure Regulator and gauge mounted at the front of the blast cabinet allows for easy adjustment of blast pressures

Double floor - 1/8" thick Expanded Steel Grate on top of a fine mesh steel carbon screen. The fine mesh screen traps contaminants preventing gun blockages

1 Year TRINCO™ Warranty on non-consumable parts

Very popular model, great for automotive repair shops

Heavy duty 14 gauge welded steel construction

Spring loaded hopper trap door for easy media changes

Heavy duty blast gun with Tungsten Carbide nozzle, 25 CFM air jet, and safety enclosed foot pedal control

Available with TRINCO™ Model 36 with BP Dust Collector (shown), TRINCO™ Abrasive Separator or TRINCO™ Deluxe line
